BOYS'
BASKETBALL**

STATISTICAL REPORT

Volume IV

Prepared by John Vosejka

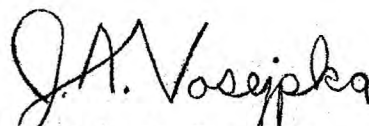

FOREWORD

The composition of this statistical report took approximately 125 hours--50 hours of viewing actual games, 25 hours of preparing the weekly statistics (i.e., compilation, typing and mimeographing) and 50 hours of preparing this report (compilation, typing, mimeographing and binding).

At this time I would like to thank the head coaches and their assistant(s) for their help, assistance and cooperation. A very special thanks goes to Lloyd at Johnson, Norm at Humboldt, Rand Jaker at Highland and Lynn Witte at Harding for their promptness in sending me the game summary sheets. Without the help of everyone I have mentioned, this report could never have been produced.

My sole objective in compiling the statistics for the city has always been to give just recognition to those players and coaches who deserve it. One must always remember that a player's ability cannot always be measured solely on his statistics.

Finally, I would like to point out to you that these statistics are not official. But until someone else takes 125 hours of their time (without pay) to compile the basketball statistics, as I did, I consider these statistics, as I hope you will, official.

John A. Vosejka
