GIRLS'  
BASKETBALL**

**STATISTICAL REPORT**

**Volume III**

**Prepared by John Vosejka**

## FOREWORD

It's hard to believe that another girls' conference basketball season has passed--but it has. For the third consecutive season, I have compiled a statistical report; recapitulating the highlights of the just completed season. This report is the culmination of over 150 hours of viewing games, compilation, typing, mimeographing, and binding. I hope that you truly appreciate the time, effort and pride that I have placed in this report.

This report is, by no means, the effort of just one individual. My thanks go to every coach in the conference for their assistance in submitting the game summary sheets to me. My thanks also to Marge Holderness for her cooperation. Without the help of all that I have mentioned, this report could never have been produced.

As I have stressed in previous reports, my sole objective in compiling the statistics for the conference has always been to give every player and coach in the conference some sort of recognition (which they all deserve) and to give special recognition to those that excel in a particular category. One must always remember that a player's ability cannot, and should not, be measured solely on her statistics.

As I reflect back upon the just completed season, I have mixed emotions about its conclusion. This was the first season that Mechanic Arts did not participate. It saw the end of Monroe's participation in the conference. Next season the conference will see the addition of two schools (Hill-Murray and Derham Hall). I hope that these schools will totally appreciate the honor of being associated with the St. Paul City Conference. A conference rich in tradition, pride, and prestige.

Best of luck to all of you and I'll see you next year.

*John A. Vosejпка*

## STATISTICIAN'S NOTE

*This season, the conference played a double round robin schedule (compared to a single round robin last season). Normally, to compare this season's totals with last year's, I would double last season's totals. However, with Mechanic Arts no longer in existence, there were not twice as many games played this season.*

*For this reason, it is impossible to directly compare this season's stats with those of last year. I, therefore, was forced to use a percentage of the average statistic to compensate for the additional games being played. Seasonal increases or decreases that have been affected are denoted with an asterisk (\*).*

*I feel this is the only way that a true comparison of the two seasons is possible.*
