GIRLS' BASKETBALL STATISTICAL REPORT

1985 - 1986

Volume XII

Compiled by John Vosejka

FOREWORD

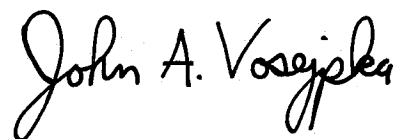

The 12th season of St. Paul City Conference Girls' Basketball is now history. You were part of that history. This report is a look at the statistics of both this and past seasons. It is the 12th consecutive year that I have compiled a statistical report; the culmination of over 100 hours of compilation, typing, mimeographing and binding.

This report is, by no means, the effort of just one individual. My thanks go to every coach, assistant coach and scorer that assisted in submitting the game summary sheets. You made this report possible!

As I have stressed in previous reports, my sole objective in compiling statistics for the conference has always been to give every player and coach in the conference some sort of recognition (which all players and coaches need and deserve) and to give special recognition to those that excel in a particular category. Remember that a player's ability cannot, and should not, be measured solely on her statistics.

This year was good for several conference teams. Hill-Murray and Highland Park tied for the conference championship (only the second time in conference history that there was a tie). Hill-Murray captured Twin Cities Game honors and went on to win the Region 4AA title. The Bill Wold coached Pioneers finished the season as Consolation champs at the State Tournament. Highland Park won the Region 3AA crown. Betty Richardson and her Scots then went on to finish second in State Tournament competition. The Scots Amelia Green (575 points) and Toni Jameson (527 points) moved into the All-Time Top Ten scoring list. All in all, a great year for the conference.

As you peruse the pages of this and previous reports, I hope that it will help you remember the players, teams and records of St. Paul City Conference Girls' Basketball, 1985-1986. See ya!

John A. Vosejka

STATISTICIAN'S NOTE

With one less game played last year (Hill-Murray's forfeited win over Humboldt), it is impossible to directly compare this year's stats with last year's. I therefore used a percentage of the average statistic to compensate for the game lost. Seasonal increases/decreases that are affected are noted with an asterisk ().*

I feel this is the only way a true comparison of the two seasons is possible.
